

Cabot Breaks Ground on New Fumed Silica Facility in Jiangxi, China

January 20, 2005

Project of Cabot Bluestar Chemical (Jiangxi) Company Ltd.

BOSTON, and BEIJING, Jan. 20 /PRNewswire-FirstCall/ -- Cabot Corporation (NYSE: CBT) today broke ground on its new world-class fumed silica manufacturing facility located in Jiangxi province, China. The facility is a project of Cabot Bluestar Chemical (Jiangxi) Company Ltd., a joint venture between its wholly-owned subsidiary, Cabot (China) Limited, and Bluestar New Chemical Materials Co., Ltd., a part of the China National Chemical Group. Cabot is investing approximately US \$30 million to construct the plant scheduled for completion in the first half of 2006.

The new plant in Jiangxi will be Cabot's sixth fumed silica manufacturing facility. Other Cabot fumed silica manufacturing facilities are located in the US, Europe and India.

At the groundbreaking ceremony, Cabot Chairman and CEO Kennett F. Burnes said, "We are pleased to be here with the support of the government of China and China Bluestar Company to celebrate the development of the first, world- class fumed silica production facility in China. With the robust economy in China and throughout the Asia Pacific, this new plant will allow us to supply our customers with the materials necessary to sustain this growth."
